FRIDAY JUN 11, 2021 |

SRQ DAILY FRIDAY WEEKEND EDITION

Water conditions and the health of seagrass beds in the Sarasota Bay area have been changing rapidly, and there is a pressing need to gather more information about the amount of algae growing in our bays. Volunteers will help monitor macroalgae by snorkeling in an assigned area, estimating the coverage of seagrass and macro algae, and collecting samples. The Eyes on Seagrass survey will take place over a two week window from July 12 - July 24. Volunteers can pick any time during this window. The survey will take about one hour. Training and gear distribution will be held over three days.
